KZ KITCHEN CABINET & STONE, INC.

ABOUT US

KZ Kitchen Cabinet & Stone, Inc. was founded in 2002. After 18 years of development and improvement, we have grown into one of the biggest and leading kitchen and bath remodeling companies in the San Francisco bay area, and your true one-stop shop.

We have three factories in mainland China and one factory in Vietnam manufacturing solid wood kitchen cabinets, vanities, granite, marble, quartz countertops, and wood flooring. We also carry shower surrounds and shower glass doors for bathrooms and many other building materials. Because we produce the materials ourselves, you can be assured that you are getting quality products at great prices.

We have five warehouses totaling 500,000 square feet located in the heart of the San Francisco bay area for convenient pickup, and seven beautifully decorated showrooms (including dealerships) with on-site sales and designers across the south bay to better serve you and your remodeling needs.

Shower Components **56**

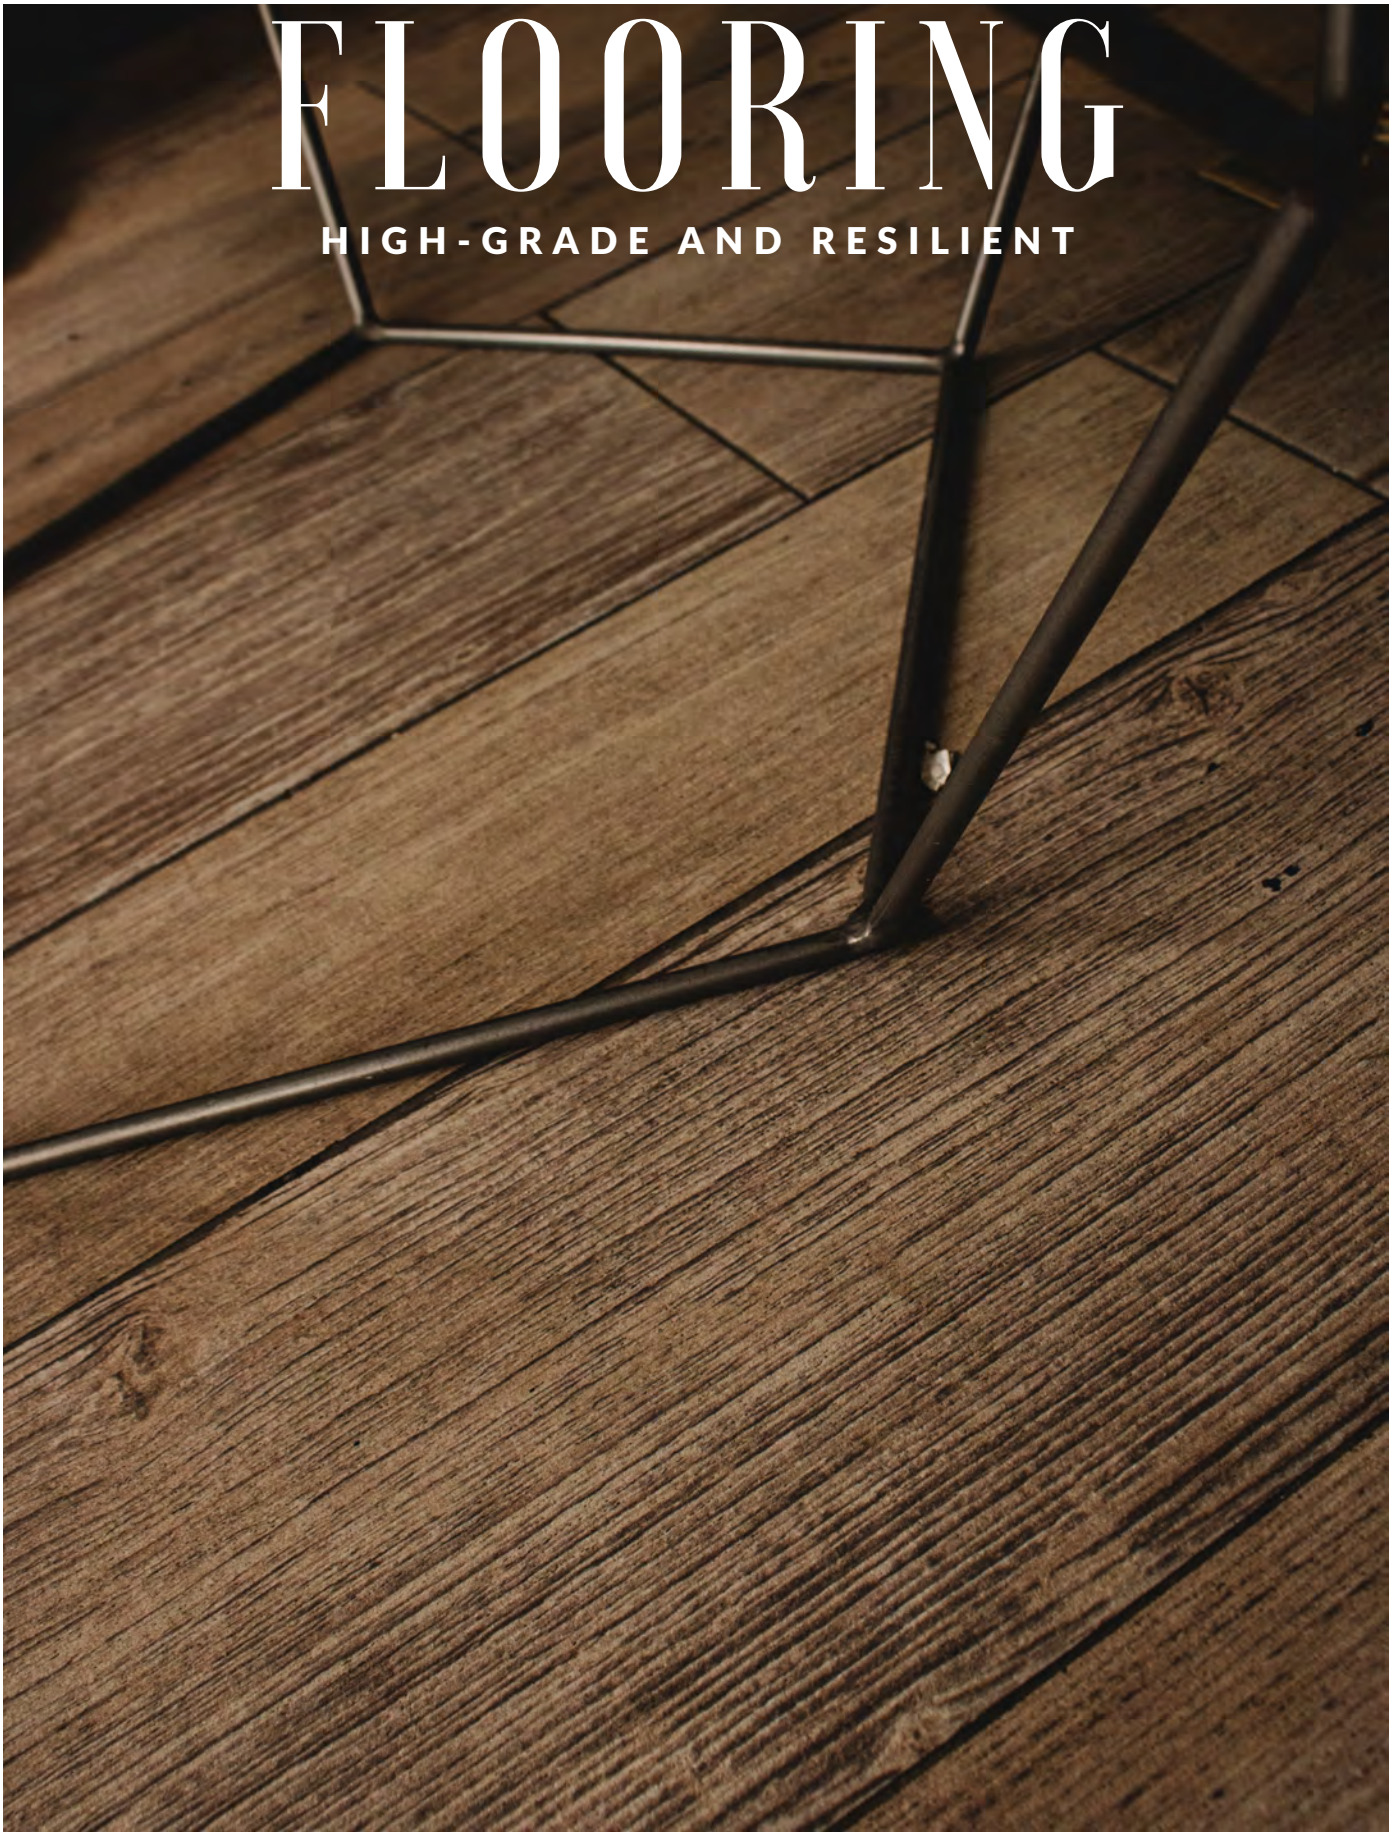
Important Note

Photos shown may differ from actual products, and thus are for reference only. Not all products are shown in the catalog. In addition, product availability is subject to change without prior notice.

For product accuracy and availability, please visit any of our KZ showrooms.

WOOD FLOORING

HIGH-GRADE AND RESILIENT



PG. 3

LAMINATE

OVER 20 STYLES

Also referred to as floating wood tile, laminate is a multi-layer synthetic flooring made of melamine resin and fiberboard materials.

PG. 7

SOLID HARDWOOD

OVER 10 STYLES

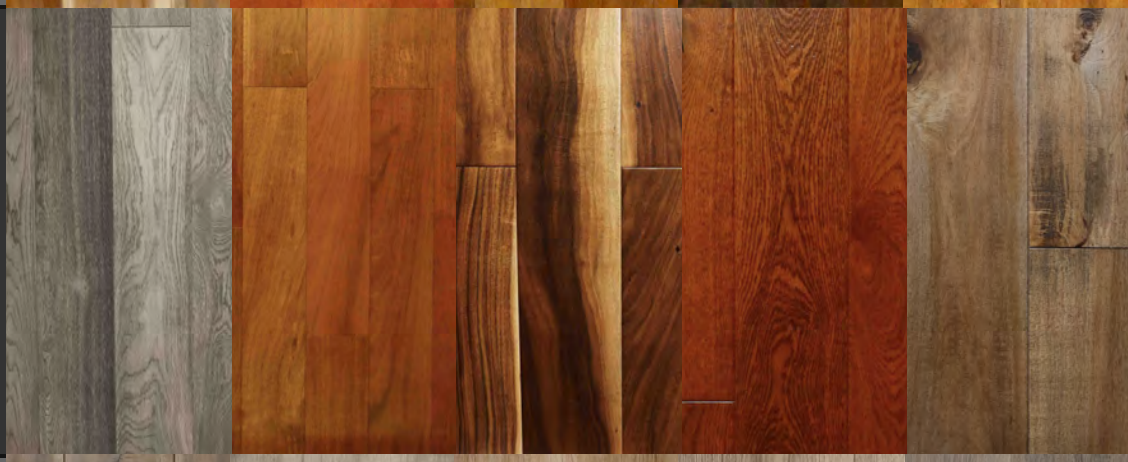
Solid hardwood is fabricated from 100% solid wood planks, shaped to have tongues and groove edges so they can fit together effortlessly.

PG. 10

ENGINEERED WOOD

OVER 40 STYLES

These planks are manufactured from scraps of lumber and byproducts that have been reformed using heat, glue, and pressure.



PG. 17

WPC

OVER 5 STYLES

Standing for Wood-Plastic Composite, WPC typically consists of polyvinyl chloride, calcium carbonate, plasticizers, a foaming agent, and wood materials.

PG. 18

SPC

OVER 15 STYLES

Standing for Stone-Plastic Composite, SPC flooring is typically comprised of around 60% calcium carbonate, polyvinyl chloride, and plasticizers.
